WHO IS **¿Qué pasa? VEGAS**

Que Pasa Vegas...

Que Pasa Vegas is the premier Spanish language monthly publication serving the Hispanic tourist and local market in Las Vegas since 2004. Que Pasa Vegas is written, edited and created by a group of professionals having more than 75 combined years of experience marketing, communicating and advertising to the Hispanic market. It is the largest and the sole high quality and content magazine which targets the Spanish speaking consumer visiting or living in Las Vegas.

DISTRIBUTION & CIRCULATION

Current distribution is 52,500 copies per month in Las Vegas, Southern Nevada, Southern California and on the I-15 corridor between Southern California and Las Vegas. We are a “free to consumer” magazine. Our method of circulation is placement of the magazine in racks and free subscription throughout the United States. Typical placement of the magazine includes Bell and Concierge Desks at major hotels on the strip; racks directly on the strip; racks in various businesses throughout Las Vegas including the Forum Shops and Fashion Outlets; racks in convenience stores, gas stations and restaurants on the I-15 corridor; sites within the places of business of over 120 Hispanic travel agents in Southern California; at selected magazine stands and book stores in the Southern California area. Over 4,200 copies of the magazine are mailed each month to Hispanic families in Las Vegas and throughout the U.S. and Mexico, plus numerous industry and related friends. Circulation has grown steadily from 10,000 per month at our inception in 2004 to 52,500 per month now. The increase has been steady and driven by reader interest and statistics.

THE U.S. HISPANIC CONSUMER

A LOOK AT THE NUMBERS

SIZE: The size of the U.S. based Hispanic population exceeds that of the population of Canada. The 2020 Census expects to count a record 62 million Hispanics, or 1 in every 6 US residents. Hispanics are now the nation's second-largest consumer market. Hispanics represent \$700 Billion in purchasing power and are growing at a rate 10 times faster than the general population in terms of sheer numbers and in terms of entrepreneur business ventures.

BUYING POWER: Besides being numerically large, this market segment also has spending power. Recent published studies reveal interesting facts about the state of the Hispanic American market. For instance, the \$100,000 plus household-income segment grew 221% accounting for 18% of the Hispanic population and during the past decade. Hispanic owned businesses in the feeder state of California accounted for over half of the 900,000 plus minority owned business in that state, with gross receipts of over \$57 Billion. Meanwhile in Nevada the number neared 10,000 and produced gross receipts of nearly \$2 Billion.

WHAT DOES THE HISPANIC CONSUMER MEAN TO LAS VEGAS?: The number of Hispanic visitors to Las Vegas exceeds 2.4 Million with an approximately \$2 Billion in spending. The largest single group of Hispanic visitors comes from Southern California. The second large group of visitors comes from Mexico. Other states such as Florida, Arizona, New Mexico, Texas and New York also contribute significant numbers of Hispanic visitors.

FACTS

AGE, LOCALE & SPENDING HABITS

The US Hispanic population is more than 10 years younger than the average for non-Hispanic, and with a median age of about 28 that means 2 75% of adult Hispanics are ages 18-45. The household size of US Hispanic families is the largest of any market segment at 3.8 members per home. The Hispanic consumer market is the most geographically concentrated of any large consumer segment, the 8 states with the most Hispanics are home to 76% of all US Hispanics. About 50% of all Hispanic consumers live in California and Texas, the other 6 states which have 1 Million or more Hispanics are Florida, New York, Illinois, Arizona, New Jersey and Colorado.

- As of 2018 about 35% of Las Vegas' population is Hispanic and 26% of the State's population as a whole is reported to be Hispanic.
- It is estimated that in 2019, 3.8 Million visitors to Las Vegas were Spanish speaking and spent about \$3 Billion non-gaming revenue.
- By 2021 the spending power of US Hispanics will be \$2.1 Trillion and that average House Hold Income will be around \$48,000 per year
- 45%of all affluent Hispanic Households are in Los Angeles, New York, Houston, Miami & Chicago
- 47% of the Nation's purchasing power and 50%of the Hispanic population are concentrated in California and Texas
- In 2018 US Hispanic owned businesses numbered 2.2 Million and generated \$588.7 Billionin revenue
- By 2021 US Hispanic owned businesses are expected to number 4.3 Million and generate \$700 Billion in revenue based on current projections
- In California (13+ Million Hispanics, 57%), Texas (8.5+ Million Hispanics, 52%) and New Mexico (57%), the Hispanic population is the majority
- Que Pasa Vegas' readers reported spending/budgeting \$112 on shopping, \$92 on rooms, and an average gaming budget of \$342.

ADDED VALUE & MARKETING OPPORTUNITIES

Utilizing targeted marketing initiatives to increase the cost effectiveness of your advertising dollars are an important part of our business. Added advertising value comes from events, promotions and programs developed by ¿Que pasa? Vegas to increase your visibility and the exposure to your products and services.

ADDED VALUE AND MARKETING OPPORTUNITIES INCLUDE:

- Monthly editorial articles and reviews introducing your company and its products and services.
- Advertising programs with our TV and Radio partners to produce synergistic TV/Radio and Print media campaigns.
- Placement of targeted ads for a multi campaign in combination of ¿Que pasa? Vegas and our sisters magazines Transporte Latino and Automundo at minimal extra cost. This allows a message to be broadcast nationwide to an economically powerful segment of the Hispanic population for much less cost.
- Placement of your information and links on our web site, quepasavegas.com and vegas-card.com.
- Through our free subscription program and the VegasCard, members, we conduct market surveys of our readership that provides valuable information to our advertisers.
- The scope of added value possibilities is immense. With our vast promotional tools, the exposure you will receive is unmatched by any other publication. We will truly maximize the result for your advertising dollars.

VEGAS CARD

VegasCard is the first discount card for the Hispanic Market introduced in Las Vegas by Qué Pasa? Vegas Magazine. It is a unique marketing tool in which participating merchants will provide discounts to thousands of VegasCard members. The card substitutes the old concept of using coupons which are not favored by Latinos. The card is distributed to our members nationwide at no cost with a free subscription to our Qué Pasa? Vegas magazine. The website vegas-card.com and our magazine also promotes the member merchants and their products and services.

100 pages each month of the latest and greatest news, reviews and product announcement using high quality eye catching photography and written by experts in their field.

THE DIFFERENCE IS EVEN MORE STRIKING FOR ADULTS BEYOND COLLEGE AGE. In that same five-year period, **2.5 million Latinos aged 25-64 joined the labor force**, while the number of non-Latinos of the same age in the workforce actually shrank. **"Latinos are the future of the U.S. workforce,"** the report says. All those people in their prime working years are helping the Latino economy grow considerably faster than the rest of the country. **Between 2010 and 2015 it grew 2.9% per year, while the non-Latino economy grew at 2.1%, the report said.**

Going forward, this means that the overwhelmingly white baby boomers will be supported in their retirement by a labor force that is increasingly Latino. The report's authors, Werner Schink and David E. Hayes-Bautista, did similar research in California predicting such a population changeover. **California is 39% Latino today**, and the authors say a similarly important change is happening in the national economy.

"While in the past we said here are the demographic numbers, we can say now how important that changeover is," Hayes-Bautista told BuzzFeed News. "We've reframed from [demographics] to GDP."
